### REASONS FOR ALLOWANCE

1. Claims 1-4 are allowed.

Claim 1 is allowed because the prior art of record fails to disclose or suggest a circuit which includes all of the limitations of claim 1. In particular, the prior art of record fails to disclose or suggest the circuit including an adjustment circuit including a fuse for making the third transistor nonconductive when the fuse is not blown, and connecting the input electrodes of the first and third transistors when the fuse is blown, to adjust driving capability of the output circuit.

Claims 2-4 are allowed because they depend on claim 1.
